THE PERFECT SHOP

*A Product Guide for an Efficient Reliable,
and safe Compressed Air System
(between the dryer to the tool)*

PREVOST...
your best source
for premium products
for transfer and treatment
of compressed air

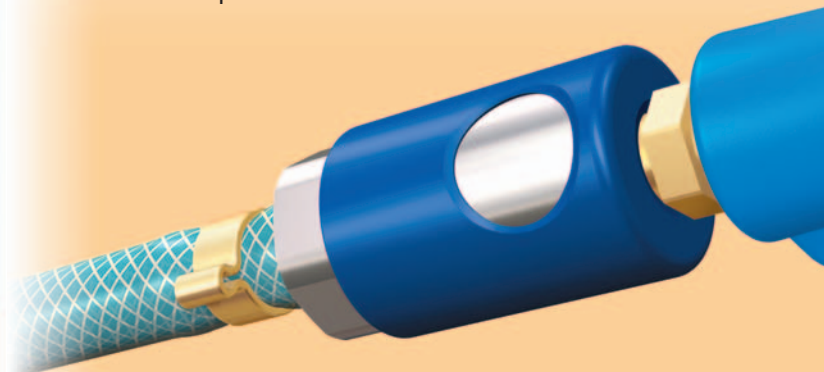

PUSH BUTTON QUICK COUPLING

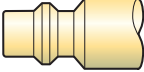

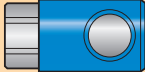

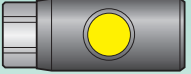

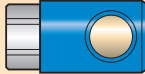

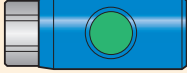

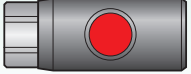

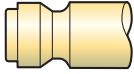

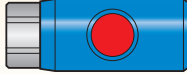

Safety push button couplers

The coupling that puts safety first
The safety coupling makes dangerous hose whip a thing of the past all in the push of a button.

Regular push button couplers

The «original» push button design
Light weight, easy to connect, impact-resistant, ideal for all air powered tools.

BODY SIZE	SAFETY	PROFILE	REGULAR	BODY SIZE
1/4"	ISC 06 	 Industrial profile ISO 6150 B	 IRC 06	1/4"
1/4"	ASC 06 	 ARO 210	 ARC 06	1/4"
1/4"	ESC 07 	 High flow 7,2 / 7,4	 ERC 07	1/4"
1/4"	USC 06 	 Automotive TRUFILATE	 URC 06	1/4"

27102 BLOW GUNS

*High performance blow guns
for compressed air*

- Sturdy construction
- Light weight
- Full pressure performance with variable flow
- Ergonomic design

ELS COUPLINGS

For water system

- Industrial water system
- Machinery hot water supply system
- Watering
- Compatible with most water couplings

ALR, AIR PIPING SYSTEM

High quality aluminum piping system for compressed air

- **Labor saving**... fast and easy to install and modify
- **Energy efficient**... smooth passages & sealed connections supply highly efficient air flow for life-long energy savings
- **Superior air quality**... ALR's non-corrosive materials deliver cleaner air that prolongs the life of air tools & equipment
- **Performance**... ALR's durable, shock-resistant components help build a lasting, high performance compressed air piping system

ALTO

Air unit treatment

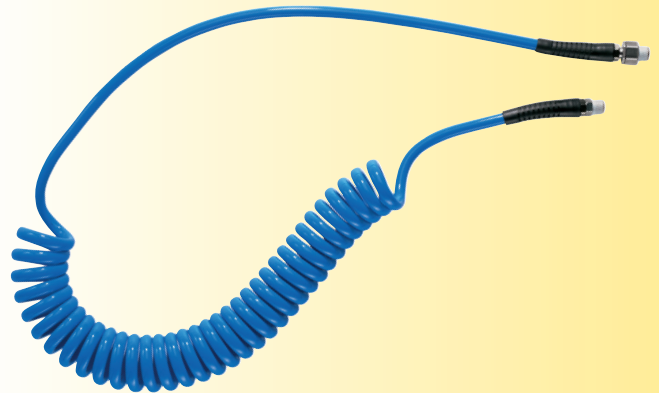

- **Air quality**
Preservation and lubrication of pneumatic tools
- **Heavy duty**
Sturdy construction. Aluminium alloy body
- **Modular construction**
Fast easy installation and maintenance
- **User friendly**
«Push to lock» adjusting knob for setting pressure

PUS SPIRAL HOSES

Flexible and durable polyurethane spiral hose

- Excellent shape memory and extra-long service life
- Very flexible and resists kinking
- Abrasion resistant
- Rotating connector on operator end prevents twisting

AIR HOSES

Stoflex non static hose

- Ideal for painting applications
- Very light and flexible, high resistance to oil

Airca automotive hose

- Ideal for automotive applications
- Heavy duty and highly durable hose

HOSE REELS

Streamline your workstations

- More efficient work stations
- Keep work area safe and neat
- Automatic hose locking system
- No more cut or broken hoses
